

Volunteer Role Profile

App Developer

Do you have a passion for mobile app development? Are you looking to gain more experience by volunteering? Do you want to diversify your skills and knowledge? Do you enjoy helping people?

We are looking for a technical and organised individual to support our Projects and IT Coordinator with developing our Spectra 5 Autism Alert App. You can find more details about the app here: <https://www.autismhampshire.org.uk/how-we-can-help/spectra5-app>

What you will be doing

- Work directly and collaborate with the Projects and IT Coordinator to understand project requirements and objectives.
- Offer expertise and suggestions on design software and accessibility of the app.
- Ensure software meets the needs of autistic and neurodivergent people.
- Ensure all work is produced and delivered within agreed time frames
- Work remotely as part of a team and attend meetings as required (primarily through Microsoft Teams)

The skills you need

- Previous app development experience and skills are **essential**
- Good organisation, planning, and time management

What's in it for you?

- Voluntary experience with a local charity – an excellent addition to your CV!
- Teamwork – be part of a friendly, passionate team.
- Interpersonal skills – develop your communication skills through interacting with the marketing and fundraising teams.
- Diversify your skills and knowledge around app development.
- You will be helping us spread the word of Autism Hampshire, promoting and advocating the charity's vision and mission.

Commitment level required

Level of commitment may vary depending on the project.

Please contact gill.prestidge@autismhampshire.org.uk if you are interested.
