

Community Support

Completely flexible support from people's own homes

Our home support services offer completely flexible support, supporting people in properties we manage (listed below) and supporting people in their own homes.

We support people who live independently or within the family home, who wish to learn life skills or want support to maintain their independence. We offer support packages tailored to people's needs 24 hours a day, 7 days per week, 52 weeks a year.

Our Community Support team have their own vehicles to help each service user to access the community. We strive to support everyone so they can live the best, most independent lifestyle possible for them.

To access our Community Support service please email us using the "Enquire about this" box.

Our Community Support Service is registered with the Care Quality Commission (CQC).

Please [click here](#) to view CQC report of our Domiciliary Service.
